

Stage 1

- Form a group of 4 members, reply to the Discussion on Minerva with the name and username of group members
- Should complete this by the end of week 3. A few channels for you to find your group member (1) via lab session (2) via Teams channel (3) randomly assign at the end of week 3

Stage 2

- Find a sufficiently large dataset, at least with 8 columns and 800 rows
- Many free datasets online – Kaggle, open data from governments such as <https://www.data.gov.uk/>, <https://ourworldindata.org/>
